-

1. Mandatory biometric submission for Indian visa and OCI applicants

1. Under the 2025 regulations of the Bureau of Immigration, all foreign nationals applying for an Indian visa or OCI registration are required to provide biometric information before approval is granted.
 2. The Bureau of Immigration mandates biometric enrollment for every foreigner seeking an Indian visa or Overseas Citizen of India (OCI) registration under the 2025 Order.
 3. Submission of biometric data is compulsory for foreign applicants applying for any visa category or OCI registration in India.
 4. Indian visa and OCI registration processes administered under the 2025 immigration framework require applicants to furnish biometric information prior to issuance or registration approval.
-

2. Authorities authorized to collect biometric information in India

1. The Bureau of Immigration authorizes specified State or Union Territory authorities, Registration Officers, Immigration Officers, Border Guarding Forces, and the Coast Guard to collect biometric information from foreigners within India.
 2. Foreign nationals identified in India may be required to submit biometrics through the Central Government electronic portal to designated immigration and civil authorities.
 3. Biometric collection in India may be carried out by Immigration Officers, civil authorities, Registration Officers, Border Guarding Forces, or the Coast Guard as authorized under immigration regulations.
 4. Authorities empowered to capture biometric information of foreigners in India include State authorities, Union Territory authorities, Immigration Officers, and security agencies designated by the Central Government.
-

3. Validity period of captured biometric information

1. Biometric information collected under the immigration framework of India remains valid for a period of 10 years from the date of capture.
 2. The validity duration of biometric data recorded by the Bureau of Immigration is ten years.
 3. Biometric records obtained from foreign nationals for immigration purposes are retained as valid for 10 years from enrollment.
 4. Under Indian immigration regulations, captured biometric information is considered valid for a decade from the date of collection.
-

4. Exemption for individuals with poor or unavailable fingerprints

1. Foreign nationals with poor or unreadable fingerprints are exempt from fingerprint capture requirements, and their facial traits or iris scans may be recorded instead.
2. The biometric regulations of the Bureau of Immigration permit facial recognition or iris scanning as alternatives where fingerprints cannot be captured adequately.
3. Applicants unable to provide usable fingerprints may satisfy biometric requirements through facial trait capture or iris scanning.
4. Indian immigration biometric procedures allow exemptions from fingerprinting in cases where fingerprints are unavailable or unsuitable for capture.

5. Biometric requirements for individuals with missing fingers

1. Foreign nationals with fewer than ten fingers are required to provide fingerprints only for the fingers that are present.
2. The biometric enrollment framework in India requires applicants with missing fingers to submit fingerprints for existing fingers only.
3. Applicants with partial finger loss are exempt from providing fingerprints for missing fingers under Indian immigration biometric regulations.
4. Fingerprint collection procedures administered by the Bureau of Immigration accommodate individuals with fewer than ten fingers by capturing available fingerprints only.

6. Technical specifications for biometric collection

1. Biometric information under the immigration system of India is captured according to technical specifications prescribed by the Central Government.
2. The Ministry of Home Affairs defines and periodically updates the biometric standards applicable to immigration and visa processes in India.
3. Technical specifications governing biometric capture for immigration purposes are issued by the Bureau of Immigration and the Ministry of Home Affairs.
4. Updated biometric capture guidelines and technical standards are published by the [Ministry of Home Affairs, Government of India](#).
